

BASIC CURRICULAR PROGRAM

Because education is a lifelong process, the educational program provides a curriculum that serves the general academic needs of all students and presents opportunities for individual students to develop specific talents and interests in career-technical and other specialized fields and to grow toward independent learning.

The curriculum provides a balanced, integrated, and sequentially articulated foundation of understandings, attitudes, and knowledge needed for living in a democracy and pursuing a career and life goals. Standards are established according to State law.

The basic curricular program is viewed as important to the development of intellectual curiosity, critical thinking, problem-solving abilities, and aesthetic appreciation which serves the student during his/her school experience and throughout life.

The curriculum responds to the wide range of development needs, learning styles, abilities, and English proficiency by providing a variety of materials, curricular adjustments, and courses adapted to the special needs of individual students.
