

STUDENT SCHEDULES AND COURSE LOADS
CHANGE OF SCHEDULE

Students are not permitted to change schedules or drop subjects without permission of the guidance counselor or the principal.

A student should not register for classes with the attitude that, if he does not like the course, he will drop it. If a student registers for a course, he is expected to complete the work.

Students in foreign language must take the second year of the language in order to get credit for the first year, unless the teacher recommends that the student will not benefit by the second year's study.

No schedule changes or adjustments will be made until AFTER the first full week of school. If a subject is dropped after the second week of school, a grade of "F" will be recorded.

[Adoption date: August 6, 1991]
